in Santiago after the flight from the island. Interested passengers must inform this request before purchasing the ticket.

FLIGHT CANCELLATION POLICIES

1. If the passenger cancels 4 weeks before the date of departure, 100% of the rate of the ticket will be refunded.
2. If the passenger cancels up to 15 days before the date of departure, 30% of the rate of the ticket will be charged.
3. If the passenger cancels between 14 to 7 days before the date of departure, 50% of the rate of the ticket will be charged.
4. If the passenger cancels between 7 and 24 hours before the date of departure, 80% of the rate of the ticket will be charged.
5. If the passenger cancels less than 24 hours before the departure, 100% of the rate of the ticket will be charged.
6. The changes of dates of travel can be made 2 weeks prior to the flight and will have an added cost of 5%. Every change is subject to availability.

FLIGHT OPERATOR CANCELLATION

Aerocardal will cancel the flight only due to force majeure. The most common cancellation scenario is due to unviable meteorology in the island. If this was the case, Aerocardal will notify its passengers the day before the flight if weather conditions do not allow operating.

In the event that the weather forecast one day before the flight is uncertain, the cancellation notification will be made on the day of the flight. This notification will be delivered via email or phone call to the number that was provided on the flight reservation. In the case of the reservations made through a travel agency, we will inform the agency directly, which will have the responsibility to pass this information to the passengers.

What Chilean law states as force majeure are, within others guidelines:

- Earthquakes, tsunamis, floods or any acts of nature that prevent the service from being delivered.
- Acts of sabotage as kidnaps, terrorist attacks or extremists that prevent the operation.
- Wars, revolutions or revolts that prevent the operation from being executed.
- Acts imposed by the authorities such as confiscations, expropriations or other measures that do not allow the activity.

RESCHEDULING OF THE FLIGHT

Aerocardal will reschedule the departure of the cancelled flight due to weather conditions for the next day (Saturday) for those flights arranged for the weekend. If the weather conditions are unfavorable during all weekend, the flight will be rescheduled for the next weekend.

Aerocardal is not responsible for cancelling or maintaining reservations in hotels or with travel agencies, because meteorology is uncertain and difficult to predict.
